d. PLAYER TRANSFER AND RELEASE

Player Transfer Policy: Once the player or the player's representative executes the registration form and pays the appropriate fees to a member organization, that player is bound to that member organization for the duration of the seasonal year. The seasonal year for Missouri Youth Soccer runs August 1 through the opening date of tryouts or, for those teams which are advancing, the conclusion or elimination of the team in any remaining USYS National Competitions. This policy is specifically for the rostering of competitive players that wish to move organizations and has no bearing on recreational participants.

If needed, players have opportunity to transfer during the soccer season as described below:

- a) Between the earliest dates; August 1st of the seasonal year or later date that a player or the player's representative executes the team or club registration form and November 30th of the same year, there will be no transfers allowed to other teams or clubs for competitive players.
- b) Between December 1st and January 15th of the seasonal year, a player may request, and be granted, a transfer from one team/club to another team/club once the following provision is met.
 1. There will be a \$400 transfer fee charges. \$100 of the fee will remain with the Missouri Youth Soccer Association for administrative purposes and \$300 to the team losing the player for administrative purposes. The fee is paid as part of the transfer request process and must be completed.
- c) Between January 16th and May 26th of the seasonal year, there will be no transfers allowed to other teams or clubs for competitive players.

The Player Transfer fee may be waived if one of the following situations exist. The validity of such situation(s) shall be made by the MYSA Office with notice of conflict directed to the district commissioner(s) for consideration.

- 1) The player's former member organization team has officially dissolved

and there are no other playing opportunities within the former member organization to continue playing as verified by the former member organization's Registrar, President, DOC or equivalent.

2) Club Director's for both organizations, or the head coach in the case of an independent team, agree in writing that the player should be allowed to transfer affiliations without a fee and written documentation from both parties is submitted to the State Registrar prior to the request.

3) Other unforeseen exceptional cases, where conditions beyond the direct control of the player or their guardians are causing a player to transfer member organizations to continue playing within that seasonal year. These cases MUST be submitted in writing (e-mail is acceptable) and contain a detailed description of the situation so it may be validated by the District Commissioner(s).

At the conclusion of the Missouri State Cup or Presidents Cup for the age/gender in question, whichever ends last in the Missouri Youth Soccer Association's seasonal year, any player whose team is no longer involved in USYS regional or national competitions and has no other game playing opportunities within that club, may play with any team without having to request a transfer or pay the transfer fee through the end of the current fiscal year. The player must pay the current year registration fee for a new player card to be created.

Each member organization will have the opportunity to approve or deny the transfer via the forms & requests section of the software based on the provisions below. Any player transfer takes 10 days to complete regardless of approval or denial by clubs. Should the club take no action the transfer will automatically be approved on the 10th day.

A member organization may request a delay of transfer for the following reasons:

1. If the parent/guardian & the member organization have entered a signed uniform or equipment agreement, the items be returned immediately. Proof of all claims for denying a transfer must be submitted at the time of denial and will not be considered at all if not submitted to MYSA within five (5) business days of the transfer request being made to allow time for review.

MYSA acknowledges that, in the best interest of the team/club, any monetary obligations that remain unpaid to the team/club under an agreement/contract signed by the player or player's representative must be fulfilled, if required. These fees, however, must be collected by the club, not MYSA, subject to the terms of the agreement/contact signed. Since the legal contract is between the player/parent and the team/club, any dispute of these fees is to be resolved outside of MYSA and MYSA will not be able to prevent the transfer due to outstanding monetary obligations to the team/club.

If a team is participating in the US Youth Soccer National Championships Series (Missouri State Cup) or Presidents Cup Series, they must comply with the maximum number of transfers allowed as specified in the rules for those events.

Member organizations may form, disband, and reform recreational teams into informal team lists, as they think best. There are no recruiting rules that pertain to recreational players nor transfer fees associated with movement of recreational players.

A player may be released from a competitive organization involuntarily only if the player is unable to play for one of the following reasons:

1. The player has violated rules of the US Soccer Federation or the US Youth

- Soccer State Association or the National Youth Association where the player is registered.
2. The player has moved beyond a reasonable travel distance. Determination of what constitutes reasonable travel distance is subject to definition by this State Association per the transfer policy.
 3. The player is injured in such a manner that the player will not be able to participate for the remainder of the seasonal year.

 2. No offers of team placement or rostering shall be made to players outside of an organization prior to the starting tryout date and no player shall be required to commit to an organization prior to this date to "hold" a roster spot.
- iii. Prior to any registration every parent should carefully review all club documents before signing. These are financial contracts with potentially large monetary impacts and once signed, binding agreements for payment whether you continue for the entire seasonal year or not. Once a player has registered and signed up for a competitive club there are very limited opportunities to change clubs past June 15th and then during the seasonal year and those opportunities may be at an additional expense. It is essential that you understand the club's policies on transfers, guest play, primary & secondary registration before you commit for an entire seasonal year.

RECRUITING

Recruiting/attempted recruiting is considered a significant offense by this Association and any league, Club, or individual found to have committed a recruiting violation shall be subject to significant Sanction(s) as determined by the Missouri Youth Soccer Association (MYSAs) hearing panel.

Such sanctions may include a financial penalty of \$2,000 or more, loss of coaching privileges for an amount of time, and ineligibility to participate in MYSA authorized events including State Cup Tournament, MYSA's President Cup, the Midwest Regional League, National League or any other appropriate sanction.

Any club, team, or league which through its responsible officers or representatives.

For purposes of this rule, attempts shall mean any effort made in regard to accomplishing a purpose stated below.

- A. Attempts at any time prior to the approved tryout start date of any seasonal year to induce a registered player (or their parent or their guardian) of any team, or any team as a whole or club, under the jurisdiction of this Association to leave their current affiliation before the end of the current seasonal year will be considered a Recruiting violation.
- B. Attempts at any time prior to the approved tryout start date of any seasonal year to induce a registered player (or their parent or their guardian) of any team, or any team as a whole or club, under the jurisdiction of this Association to leave their current affiliation for the following seasonal year will be considered a Recruiting violation.
- C. Teams or clubs requesting to change MYSA clubs during the seasonal year must obtain written permission of the president of their present club before that move is permitted.
- D. In those instances, in which a coach moves from one club to another separate and distinct club/team during the seasonal year, the coach may not coach any rostered players from teams of the former club he/she was identified as a primary or assistant coach (excluding the coach's son or daughter) during that seasonal year.

This rule does not apply under the following:

- 1. The coach's club dissolves.
- 2. The coach moves 100 miles making the commute to the coach's existing club impractical.
- 3. The appropriate prior club representative, the club president or DOC, agrees in writing to the coach's move to a different club.

For purposes of this rule, contact is not limited to personal contact, but will include contact by phone, text, emails, Facebook and all other social media. Responsible representatives include but are not limited to: parents of team members, trainers, all employees of clubs, team managers, club or league board members, and club or league directors of coaching regardless of whether they are registered with MYSA or not. The appropriate response by the responsible representative to player-initiated contact is to provide requested information. Any recommendation for the player to attend training, tryouts or any other team, club or league soccer event by the representative would be inappropriate and considered an attempt to induce a player to leave their present soccer organization. A club or league advertising on their own website is not considered Recruiting. Attendance by the player at such events when initiated by the player or player's parents will not be considered Recruiting.

- E. A coach or manager leaving a club for the next seasonal year cannot recruit any player on the team they are rostered on, or active with, prior to the district tryout date. Additionally, the coach or manager must notify their current club of the decision to move before announcing their intent to the players/parents on the team(s) or to the public. Failure to do this could result in suspension of the coach or manager from coaching or managing any rostered players from the teams of the former club he/she was identified as a primary coach, assistant coach, or manager (excluding the coach's or manager's son or daughter) during the next seasonal year.
